

Yash Kalsekar

(+91) 7588653208, kalsekaryash1320@gmail.com

Professional Summary

Detail-oriented Mechanical Engineering student skilled in manufacturing, production planning, and quality control. Proficient in SolidWorks and CATIA with hands-on design and fabrication experience. Knowledgeable in inspection techniques and lean principles, with strong analytical and problem-solving abilities.

Education

DY Patil College of Engineering, Akurdi, Pune

2021 - 2025

B.E. in Mechanical Engineering

CGPA - 6.77 / 10

Secondary Education (SSC)

Higher Secondary Education (HSC)

Percentage: 87.40%

Percentage: 62.15%

Technical Skills

Design Tools: SolidWorks, CATIA, Auto-Cad

Others: Project Management, Technical Documentation, MS Office

Experience

Design & Programming Engineer – Primepack Container Pvt. Ltd., Pune (8 Months | Present)

- Designed sheet metal components and assemblies, incorporating bend allowances, bend deductions, and flat pattern development for manufacturing readiness.
- Generated detailed fabrication drawings with GD&T, tolerances, material specifications, and assembly requirements.
- Prepared and optimized CNC programs for laser cutting and sheet metal bending operations, improving production efficiency and accuracy.
- Applied Design for Manufacturability (DFM) principles to reduce fabrication complexity, minimize rework, and optimize production costs.
- Coordinated with production, fabrication, and quality teams to resolve shop-floor issues and ensure smooth execution of manufacturing processes.

Quality Inspector – JFE Shoji Steel India Pvt. Ltd. (6 months)

- Operated Seapro for inventory, raw material entry, and dispatch planning.
- Performed QC inspection for Slitting and CTL sections; prepared dispatch lists in Excel.
- Applied 5S and 7 QC Tools; prepared reports and BOMs using MS Office.

Projects

Groundnut Peeling Machine | Mechanical Design, Fabrication, Simulation

- Designed and simulated a rotating drum system for efficient peeling with minimal kernel damage.
- Supported fabrication, assembly, and performance testing.

Gearbox Housing Design | AutoCAD Drafting

- Designed a 2D gearbox housing assembly drawing using AutoCAD.
- Created orthographic views including front, top, and side views with proper dimensioning.
- Applied sectional views, tolerances, and standard mechanical drafting practices for accurate representation

Extracurricular Achievements

- Best Vocals for Singing – Awarded at Firodia Karandak State Level Drama Competition
- Best Music Direction – Recognized for outstanding musical arrangement and direction
- Best Classical BGM – Honored for excellence in classical background music composition
- Best Rhythmist Prize – Acknowledged for exceptional rhythm and percussion performance

Positions of Responsibility

Music Head, Vihang Kalamandal Art Circle February 2023 - April 2023

Led and managed a team of 20+ people in organizing and executing events, Pune.

Hosted and organized various events for the mechanical department at college level.

Member, MESA (Mechanical Engg. Students Association)
